Anyone who asks for this volume, to read, collate, or copy from it, and who appropriates it to himself or herself, or cuts anything out of it, should realize that (s)he will have to give answer before God's awesome tribunal as if (s)he had robbed a sanctuary. Let such a person be held anathema and receive no forgiveness until the book is returned. So be it, Amen! And anyone who removes these anathemas, digitally or otherwise, shall himself receive them in double.

EDITORIAL

This, the seventeenth number of MŌRĀN 'ETH'Ō, has as its contents, the address of the members of the hierarchies all over the world of the Churches of East and West Syriac traditions. We consider this publication as a valuable service to our esteemed subscribers and other readers of MŌRĀN 'ETH'Ō. The list of Episcopal Sees is arranged in alphabetic order of their names rather than geographically or according to their membership in various Churches. We consider that this will facilitate quick and effortless reference to any diocese of any Church anywhere in the World.

The author's intention is to make available to interested readers the authentic sources to which she or he can turn to secure further reliable information about any Church of Syriac origin and tradition. Very careful study has been done to make this list correct, complete and up-to-date. We shall be thankful to those who may have some corrections or additions to suggest.
